MAN MOST RESPONSIBLE FOR SUCCESS OF PRESIDENT'S VISIT TO LOUISVILLE.

LOGAN C. MURRAY

By courtesy of Louisville Herald.

Cloverporter who is now one of Louisville's most successful business men.

Mr. Murray was more responsible than any other man for President Roosevelt's visit to Louisville on Tuesday, April 4. He went to Washington and extended the invitation to Mr. Roosevelt to visit Louisville and was largely instrumental in making the welcome he received so royal and so satisfactory. Mr. Murray was seated in the President's carriage, in which were also Governor Beckman and Secretary Loeb, in the great parade through the crowded streets of Louisville to the courthouse, where Mr. Roosevelt delivered an appropriate address, amid the applause of thousands, who welcomed him to the State and its metropolis with a spirit typically Kentuckian.

In reference to Mr. Murray the Louisville Post says editorially:

"The admirable arrangements for the reception of the President put the public under special obligation to Mr. Murray."

"It is no easy task to reconcile the wishes of large numbers of men; to give to each his place and get from

DEATH OF CENTENARIAN.

End Comes to Cornelius Burk, Said to be That Old. At Victoria.

Cornelius Burk, one of the oldest residents of the Victoria neighborhood, died Sunday night about 10 o'clock. Death was due primarily to senility. As to Mr. Burk's age there is a dispute, some being of the opinion that it is 100 years while others say that he was about ninety-four.

Mr. Burk fell into a fire several weeks ago and was seriously burned on one side, but, as the burns were healing when death came, it is not believed that this had ended the end.

Mr. Burk first settled in Canada when he came to this country from Ireland. He located at Victoria about fifty years ago. He is survived by a wife and seven sons, all grown. The sons are John, of this city; Tom, of Givens, Texas; Chas of Owensboro; Neel, Mike, Dan and Jerry.

One daughter, Mrs. Kate Jones, of near this city, also survives.

The funeral was held yesterday. The interment was at St. Rose's cemetery, near this city, where the services were conducted by Father C. Brey.

Child Has Narrow Escape.

Aima Pile, the seven-year-old child of Mr. and Mrs. Eli Pile, of Barredon, caught fire in the field, where Mr. Pile was plowing and came near being burned to death last Wednesday.

H. M. Jolly, of Hardsburg, was here Monday.

MEETS AT STEPHENSPT.

Program For Union Star District S. Convention April 22.

The Union Star district Sunday school convention will be held at the Baptist church at Stephensport on April 22. A program for the convention has been submitted by Rev. I. C. Argabright, the president of the district, and Miss Betty Mercer, the secretary. The convention will be called to order at 10 o'clock for the rendition of the program, which is as follows:

Devotional exercises—Rev. E. M. Gibbons.

Why have a Sunday school?—T. B. Henderson.

The duty of superintendent—J. B. Herndon.

The duty of teachers—John McCoy.

Duty of parents—Geo. McCubbin.

Has the church fully realized the importance and possibility of the Sunday school?—Rev. J. T. Lewis.

Pastor's place in the Sunday school and does much depend on him—Rev. E. B. English.

What is the greatest hindrance to Sunday school work?—Led by S. C. Dowell.

Visitor From Michigan.

Mrs. H. P. Dix, of Grand Rapids, Mich., and Mrs. Jack Roach, of Louisville, visited their cousin, Sam Dix, at Robert's Bottom, last week.

FINANCE COMMITTEE PROVIDES FOR FIVE EQUITY WAREHOUSES.

Tobacco Of Growers Who Really Need Help To Be Handled Here And At Hardinsburg, Kirk, Jolly And Stephensport—The Movement To Be Financed By Same Concern As The Daviess Equity Houses.

The finance committee appointed at the tobacco growers' convention at Hardinsburg, on April 1, to put on foot a warehouse plan in Breckinridge county similar to that in vogue in Daviess county, has succeeded in accomplishing the work it was empowered to do. Farmers who need help through a warehouse plan, because of lack of funds or poor barns, can now have their tobacco handled at Cloverport, Hardinsburg, Stephensport, Kirk or Jolly, and can receive an advance on it or not, just as they wish. Experienced tobacconists have been selected by the committee to manage the warehouses at these places, which are so situated as to make it reasonably convenient for every tobacco grower who needs help to make deliveries. The warehouses will be financed by the Louisville Tobacco Warehouse company, which is the money power behind the Equity warehouses in Owensboro. The terms on which tobacco will be received and handled by the warehouses are explained in a subsequent statement, addressed by E. B. Oglesby, a member of the finance committee, to the farmers of Breckinridge and Hancock counties.

Great credit is due the finance committee for what they have accomplished in, comparatively, so short a time, through great personal inconvenience. They were very busy not only in the county, last week but elsewhere, as they made trips both to Louisville and Owensboro to complete the work of putting the warehouse plan on foot. The committee were in Louisville the first part of last week to confer with the Louisville warehouse company, and in Owensboro, accompanied by several of the men who are to manage the warehouses in the county, during the latter part of the week, to inspect the Equity warehouses there, with which they were well pleased.

TO THE FARMERS OF BRECKINRIDGE AND HANCOCK COUNTIES:

Your committee has made arrangements to handle your tobacco at the following places and by the following partners and on following terms:

Messrs. Crawford and Squires at Cloverport; and Stephensport; John O'Reilly at Hardinsburg; Sheean & Jarboe at Kirk; and Lyons Bros. at Jolly.

Will advance to all who want it \$4 on grades A, B, and C; \$9.50 on grade D; and \$3.00 on grade H and O, leaf and lugs, and \$2.00 on good, sound merchantable trash. On all low grade and non-descript leaf and trash nothing is advanced. For these tobaccoes the rebandler receives 6 cents per pound and 6 cents per pound of the grower as soon as returns are made. And farmers are advised that the best thing to do with all such is to have it piled and shipped to warehouses and sold as soon as they can.

The reblanders are to receive and weigh, pick, pluck, ready, furnish hogchad, fire and tornado insurance and storage until November 1, for all of which you pay \$1.00 per hundred pounds and that money will be advanced by the Louisville Warehouse Co., same as rest at 6 per cent.

This tobacco is to be graded and classed as taken off of wagons by a grader, appointed and paid by your committee, and a member of the American Society of Equity. This tobacco will be warehoused in houses, but each house in final settlement will be settled with you, provided his tobacco is in. This settlement will be made by you committee and the rebandler. This tobacco never goes out of our control until October 1, 1906. All reblanders are under bond.

Your committee would advise that all farmers bring their tobacco on in good merchantable order, and would like inspection of the manner of handling this tobacco.

Home Made

Have your cake, muffins, and tea biscuits home-made. They will be fresher, cleaner, more tasty and wholesome.

Royal Baking Powder helps the housewife to produce at home, quickly and economically, fine and tasty cake, the raised hot-biscuit, puddings, the frosted layer-cake, crisp cookies, crullers, crusts and muffins, with which the ready-made food found at the bake-shop or grocery does not compare.

NEW SCHOOL BOOKS SOON.

New Ruling Affects This County—Old Contract to be Cancelled.

Stat. Superintendent Fuqua, in a circular letter addressed Saturday morning to County School Superintendents of Kentucky, calls their attention to a judgment of the Mason Circuit Court, for \$10,000 against the American Book Company, being the full amount of its bond to counties under the old system, and notifies them that it is necessary, the company refusing to renew this bond, that all counties having such contracts shall cancel them, and at once substitute the books of the State uniform series.

This ruling will affect the schools of Breckinridge county, as the American Book company has refused to renew the bond mentioned above. Un-

der the old contract the schools of the county would continue to use the books issued by the American book company until 1907, but because of the change effected by the judgment of the Mason county circuit court, the State uniform series will be substituted next fall.

DRURY'S BREEDING STOCK!

Denmark Dare.

(1340 N. S. H. R.)

DESCRIPTION AND PEDIGREE:

Denmark Dare is a blood bay stallion, foaled May, 1896. Sire, Chester Dare 10, by Black Squirrel 58; dam, Mollie, by Roll Denmark; he by Star Denmark 71; 2nd dam by Jno. Akin.

MR. J. V. BOYD, of Shelbyville, Ky., his former owner and one of the best saddle horse breeders in the State, describes him thus: "Denmark Dare is 16 hands high, weight 1,200 lbs., beautiful head, good neck, the best back you ever saw on a horse, good legs, fine mane and tail and carries tail right. This horse goes all the gaits fast and right." He is a high school horse and the best broke stallion in the country. Standard and registered.

This horse will be found at my stable one mile east of Bewleyville on Louisville road and will be permitted to serve mares at \$10 for colts that stand up and suck. While Denmark Dare is but a youngster, he has made a reputation that would do credit to any living stallion as a sire, and we

kindly invite our friends and patrons to call and inspect him. You must see him to appreciate his greatness.

BEN.

This famous Washington county Jack for utility mules will be found at the above mentioned place where he will be ready for service at \$10 for a colt that stands up and sucks. BEN is 15 hands high, black, with the best bone I ever saw on anybody's jack and has proven himself to be a great breeder.

To the get of Denmark Dare I will give a premium of \$10 for the best general purpose colt. To the get of BEN I will give \$10 for the mule colt worth the most money.

A few mares from a distance kept on grass at \$1.50 per month. Accidents at owner's risk. Thanking you for past patronage and hoping for continuation of same, I am

Respectfully,

CHAS. H. DRURY, Bewleyville, Kentucky.

A TRIP FROM SAN FRANCISCO TO MANILA.

Written in dairy form, by I. W. D., formerly of Balltown.

Dec. 31. At 6 o'clock the camp is awakened by the bugle sounding reveille. We are up and astir at once, for we have all been looking forward to this day, some of us, with pleasure and great a many with some degree of apprehension, for, with most of the boys, it is the first sea voyage. Breakfast over, we sling our baversacks, canteens and blanket rolls, and await the command to fall in, at 8 o'clock.

The sharp, clear voice of the first sergeant is heard. "Fall in" is the word. Quickly the battery forms in line and is mustered by the captain. When all have been found present, the captain commands "Right face; Forward march," and we are off for the dock 360 strong, the 5th, 36th and 28th batteries, the last two of which are mountain batteries, equipped with three-inch Howitzers, packed on the backs of Missouri mules, but all our equipment is left behind as we take the equipment of the batteries we're live.

A march of about 500 yards brings us to the dock, where we board the U. S. A. transport tender "Slocum," and are taken to the quartermaster pier, at the foot of Polson street, where we board the U. S. A. Transport Thomas. As we go aboard we find that we are preceded by 500 unshodded recruits, who are destined for foreign service with the marine corps, and the marine detachment in the Philippines. A detachment of sixty men of the hospital corps, a number of men returning from furlough on their way to join their regiments, and about thirty clerks, teachers and stereographers comprise something over 1,000 souls all told, including the crew.

Quite a crowd of curiosity seekers and a few tri-noids and relatives are at the pier to see us off. At 12 o'clock sharp the whistle sounds one blast, the gang way is hoisted, the lines cast off and amid much shouting of goodbyes and waving of hats and handkerchiefs, we back out into the bay.

The day is perfect, not a cloud to be seen as we drop down the bay. The sight that greets the eye is good to look upon, the clear waters of the bay, almost surrounded by the verdant hills of the Coast Range in a comparatively small spot covered by the city of San Francisco and its environs. And over all an air of mystery with the sun almost semi-tropical in its warmth.

We soon pass Goat Island and a little beyond Alcatraz Island, used only as a military prison, and when I am in the durance ville some 350 convicts, serving terms for punishment of the various crimes committed against the United States government. To our right lies Angel Island and Ft. Mc. Dowell, to our left Ft. Mason and two miles beyond is the Presidio, a large military reservation with barracks, camps and drill grounds. We glide smoothly onward and in a few minutes we have on our left, Ft. Winfield Scott, a large brick fortification built in 1857 and, in its day, a splendid piece of military engineering, but now abandoned. The old muzzle loading cannons are lying about or stacked up like cord-wood, as they are no longer of service. Their day being past, a few shots from modern gun would cause the old walls to fall in ruins.

To our right is a high bluff on which can be seen three immense guns, said to be placed at a greater elevation than any coast defense guns

in the world, except two recently mounted on the rock of Gibraltar. As we go farther the shores on either side are lined with a number of batteries of high power guns and mortars, some of which cannot be seen from the bay, are sea-sick. Some are wishing the ship would sink or anything would happen so they could escape their present misery.

9:00 p.m. In company with a friend I am again on deck. The sky is heavy and a stiff gale blowing but the horizon can be seen distinctly. An old sailor tells me that as long as the sky line can be seen there need be no fear of a severe storm. We sighted a sailing ship about 3 p.m. We are being followed by a flock of sea gulls, which feed on the refuse thrown overboard.

Jan. 2. If the reader will pardon me I will give a brief explanation of nautical terms and a few rough points on the construction of our ship. The right side of a ship is starboard, the left port. It used to be larboard but that was abandoned because of the similarity of the two names. Forward is that part of the ship in front of the bridge and includes about one-third of the ship. Aft is that part in rear of the cabin deck, and between fore and aft is amidships, which includes the bridge and cabin deck. The bridge serves the same purpose as the pilot house on a steam boat; it is the post of the officer on watch and the steersman. The forecastle is the extreme forward part of the ship and is used for quarters for the crew. The Thomas is 8,600 tons burden, 460 feet in length and draws twenty-nine feet of water. She has burned an average of eighty tons of coal a day since leaving San Francisco. She is equipped with dynamos for lighting and condensing apparatus for distilling salt water and cold storage, and an ice plant. In fact, everything is made as comfortable as circumstances will permit.

The routine on ship board is as follows: Reveille, 6 a.m.; breakfast, 6:30 a.m.; setting up drill, 8:30 a.m.; guard mount at 9 a.m.; signal drill at 9:30 a.m.; inspection at 10:3 a.m.; and dinner at 12:00. In the afternoon signal drill at 2 p.m.; supper at 4 o'clock p.m.; and the remainder of the day is spent at leisure. This is the "duty" life. The ship is pitch-dark, considerably below deck, and discomfort, as most of the men have become accustomed to this motion, but yet a few are still wishing themselves at the bottom of "Davy Jones' locker." There is nothing to be seen but water, water everywhere; not a living thing except an occasional guano bird, a bird that reminds me of an immense bat, with the addition of web feet and looks to be about the size of a buzzard. The wings are narrower but seem to sustain it well in flight. This bird produces most of the commercial fertilizer known as guano, which is found in immense deposits on some of the smaller islands of the Pacific.

Jan. 3. Another fine day; a few broken clouds are seen here and there. Sighted a steamer on our starboard side, bound eastward, too far away to see who she was. We had a number of amateur boxing contests this afternoon which caused no end of amusement. Some of the contestants were considered skillful, but most of them were conspicuous for their awkwardness. The lady passengers appeared to enjoy the fun fully as much

as we. I met two men today whom I had known and soldiered with in '98. How small this world of ours truly is.

Jan. 4. Weather still fine. After the routine work of the day was done, I spent the afternoon lounging about the deck reading and smoking. More boxing contests, which were marred by two accidents. One man was knocked against the rail, which cut a gash in his head. Another broke his hand on the head of his opponent. The guard then stopped the boxing for the present. I myself think there is too much brutality in it. Probably would not think so if I was good with the "mitts." I once had separations in that line but found that there were others who, in addition to their desire for fame, had a good stiff solar plexus for just such cases as mine.

Jan. 5. A heavy rain fell this morning, ceasing about 10:00 a.m. The sun then came out shining brightly. This afternoon was fine. The boys are lounging about in groups, some talking, others reading or writing.

8:30 p.m. A heavy rain is falling and the sea is running high. I experienced a delightful sensation by leaning over the rail and looking out over the water. All the small group of men have gathered under an awning and are sitting on some plantains and bananas among which are some pineapples.

Jan. 6. Dropped on the Sogod River, Dixie and My Old Kentucky Home. I struck a young lad to-day who seemed to be suffering from home-sickness in a very severe form. It sometimes causes death. Of course it must have a name, so the doctors call it nostalgia. I have seen a great deal of it in the army where there are so many young men who, for the first time, have broken loose from the influence of home and mother. A case of measles made its appearance today.

Jan. 7. Last night was the roughest we have had yet. I was awakened at least half a dozen times by the noise of articles rolling about the deck. The sea was so rough today that we could not set up the tables, so we had to eat without them as best we could.

9:00 p.m. The wind has abated considerably. I hope it will be calm tomorrow, as we expect to reach Honolulu. Two cases of measles today. I am afraid we will be quarantined at Honolulu and will not be permitted ashore. If so I will be greatly disappointed, as I have heard that it is such a beautiful place, and I am very anxious to see it.

Jan. 8. This has been a perfect day. Sky clear and air balmy. Have made good time and expect to reach Honolulu some time tonight. I could learn the hour, we are expected to arrive, by asking a member of the crew, but I suppose their patience is taxed to the utmost by such questions, so I refrain from asking anyone.

At 3 o'clock p.m. we met the army transport "Sherman" returning from Manilla. One thing that surprised me greatly is the scarcity of fish in sight.

Have not seen a single one myself, but some of the boys tell me that they have seen a few flying fish. I have not seen even an albatross today. I will close for today and go on deck for a breath of fresh air. We will pass Manilla, the loper island, about 12:00 p.m.

Jan. 9. At 5 a.m. we are up astir to see what is going on and find that we are lying to in the offing of the bay. The lights of Honolulu can be seen in

front of us, while to our right is Diamond Head, a bold, rugged promontory one, an active volcano, but long since extinct. As the dawn begins to appear we steam in towards the pier. Everybody is now on deck taking in the beauty of the surrounding scene. We line the rail and push and crowd each other good naturedly for points of vantage. The sun is just rising. I think it is one of the most beautiful sunrises I ever saw, but it would be impossible for me to describe it, so I will not try, but I hear many exclamations of delight which would be unequalled for an ordinary sunrise. A sail boat comes swimming toward us, as they come nearer it proves to be the pilot and health officer of the port. The all boat is manned by swarthy, muscular-looking Kankans, who handle her with what seems to me great skill. Both officers come aboard and, after a brief inspection of the hospital the yellow flag at our mast head comes fluttering down, which means that all is well and that we will be permitted to go ashore. We breathe freely once more, for we were afraid that the ship would be quarantined. The pilot takes his post on the bridge and follows us slowly toward the pier. On arriving we go ashore at once and follow him to the pier. I hopped up the post office, mailed letters and then begin to look for the points of interest. Honolulu, the capital of the Hawaii an group, is located on the island of Oahu and contains about twenty-five thousand inhabitants. It has every appearance of a modern city, an excellent street railway system, banks, schools and churches, and, in fact all that goes to make an up-to-date city, excepting places of amusement. There is one opera house but it is seldom used, as such places do not pay because of the large Asiatic population. I saw a number of saloons out not as many as are usually found in an American city of this size. One of the first things that caught my eye was the name "Kentucky Saloon" spread out over the side of a building. I am always glad to see the name of dear old state, but would rather see it serving a more honorable and useful purpose. We first visited the palace of King Kamehameha. This is a fine structure built of stone of coral formation. The main entrance is set off by a row of massive columns and a bronze statue of Kamehameha stands in front of the main entrance. The palace is used as a public building. We next visited the palace of Queen Liliukuhina, the widow of the house of Kamehameha, who was deposed by the whites during the revolution. The islands, as you all know, were annexed to the United States in '98.

We neared a street car, which goes through the business portion

of the city, and out into the residential district, which is one of the prettiest

and gayest flowers, shrubbery and trees

along which is one of the prettiest

and date palms, the banyan and banana trees. The route took us along the beach for some distance. About two miles out we left the city and

walked thru Camp McKinley, where

two companies of U. S. Coast Artillery are stationed. We took dinner with the 92nd Co., and after a short stay again took a walk through the park.

We paid a visit to the aquarium, where I saw what is said to be one of the finest collections of fish in the world. I never believed it possible for fish to exist in such grotesque forms. One had a face for all the world like a baboon, another a face and head like a bulldog, one with a tough-leathery-looking skin covered with spikes like a porcupine, and dozens of others I would like to mention but I am afraid the reader is already tired of patience, so there are only two others that I will mention and these, undoubtedly, you have all seen or heard about, the octopus or devil fish and the shark. The devil fish don't belittle his name for all uncanny and horrid he surely is the ugliest. He is composed of a soft, shiny-looking mass without any particular form, with a pair of bulging eyes, which actually stick out so far that they could be knocked off with a stick and, if I remember correctly, six long feelers or tentacles reaching out in as many directions, and each one of these armed with numerous, small suckers for holding his victim. Draw a picture of this in your mind and you have the devil fish in all his might. The shark was a fine specimen about ten feet in length. He was kept in a tank of water about four feet in depth and during that time he was never still for one moment, but was continually swimming around and around. The keeper told me that they do not thrive in captivity, as they soon wear themselves out swimming and lashing about the tank.

The day was drawing to a close when we left the aquarium and walked down the drive toward Diamond Head, passing on the way some very fine residences, among them the home of Claus Spokes, the sugar king. We soon reached the lighthouse at the point of Diamond Head, and, after listening awhile to the surf beating on the rocks, we retraced our steps and soon found ourselves at home on the transport, that ugly tired out. (To be continued).

A Fortune For You.

If you want money write for my book, which I will send free for a short time to all deserving it. The important problems of successful money-making are explained, showing how millions have become rich. The book is especially interesting as you can do the same when you see how. It tells how you may make large sums of money with limited capital, and how you may become independent, whether your income is large or small. Attractive, interesting, profitable. My book was written especially for those who desire to better their financial condition. It gives fact which may help you make money and may be the basis of a fortune. My book will be sent free, though doing this will cost thousands of dollars. My object is not to make a profit from its sale. The man who catches opportunity by the foretop is ahead of the fellow who endeavors to get hold of the tail. I may never make this offer again.

Address Tobacco Growers.

Owensboro, Ky., April 7.—Congressman John Wesley Gaines, of Tennessee, and Congressman A. O. Stanley, of the Second Kentucky district, addressed a large meeting of tobacco growers at the courthouse this afternoon. They aroused enthusiasm and it is thought their speeches will encourage the farmers to hold their crops. To-night they left for Slaughtererville, Webster county, where they will address a meeting to-morrow.

Forget About Your Stomach. If your digestion is bad the vital organs of your body are strained and nourished as they should be. They grow weak and invite disease. Kodol Dyspepsia Cure digests what you know, I believe, in certain animals which inhabit the sea and whose ears are of much auditory importance. In these days, when we eat of all kinds, more and more nerve prostration will come up night as well as by day, and may be pardoned if he sighs wearisome for ear lids.—London Academy.

ANNOUNCEMENTS.

FOR JAILER.

We are authorized to announce W. J. Hall
of Rockville, for the office of Jailer of Breckinridge
County, for the term of two years from the action
of the Republican party.

Dr. E. M. Bewley was up from
Perod last week visiting his old
home and kinship at Guston and
Irvington. The doctor is looking Hale,
hearty and prosperous.

The excursion on the branch Saturday
April 22, will be personally
conducted by Mr. Garrett, assistant
passenger agent. His presence on the
train will insure good order and a
comfortable seat. Ten coaches will be
provided.

Col. Harry Summers of Elizabeth
town, will be at Irvington next Sat-
urday and deliver an address to the
district Sunday school convention
which meets there. Col. Summers is a
mighty fine man and a good speaker
and he will have a treat for that con-
vention. Everybody who can should be
there to hear him.

The Hon. Charles Blanford has all
he can do now taking care of his little
lamb, to the number of near 100,
dropped from seventy-five eves. He
says he's got lots of turnip greens,
hog's jowl and an old ham or two,
subject to the order of his friends.
And, later on, he'll have spring lamb
and mint sauce. If we all get these
good things we would be happy.

Vic. Robertson is a boy after our
own heart. He believes in progress
and improvement. The old fair ground
property, lately purchased by him,
is growing into a thing of beauty and
is a joy to every one that passes by it.
In a few years no blue-grass farm
will approach it in beauty and fer-
tility. Vic. is doing a great work for
this community. He is building wiser
than he knows and he's not only help-
ing himself but his neighbor as well.
A great stock depot for Breckenridge
county—that's his idea. And it's a
good one. A grand clearing house for
stock, where a farmer who has a good
animal of any kind can go and find
a buyer, and where men from a dis-
tance can come and find what they
want. This is business and it is a
business that helps everybody. It
just so well. Vic. says he's been
indians dropped in here, picked up a
car load of horses from Vic. and went
home well pleased with his purchase.
That man will come back again and
his coming will help us all. We tip
our hat to Vic. and his energy and
enterprise.

Healthiness is Due

To a good many causes. It may have
come as a result of your work. It
may have come from exposure on the
battle-field, but no matter what the
cause, it can be instantly relieved by
the free use of Paracamp. This won-
derful remedy opens the pores of the
skin, induces sweating, stimulates
the circulation, thereby removing the
congestion and drawing out all fever,
soreness and inflammation.

Try a bottle to-day and be convin-
ced.

Fine Breeding Stock.

We call the attention of the breeders
of fine stock in this county to the ad-

All Humors

Are impure matters which the skin,
liver, kidneys and other organs can
not take care of without help, there is
such an accumulation of them.

They litter the whole system.

Pimples, boils, eczema and other
eruptions, loss of appetite, that tired
feeling, bilious turms, fits of indiges-
tion, dull headaches and many other
troubles are due to them.

Hood's Sarsaparilla and Pills

Remove all humors, overcome all
their effects, strengthen, tone and
invigorate the whole system.

I could not write. I took Hood's Sarsaparilla
and it drove out the humor. I continued to
use it till the sores disappeared." Ma.
Ira O. Brown, Runford Falls, Me.

Hood's Sarsaparilla promises to
cure and keeps the promise.

Nasal CATARRH

In all its stages.

Ely's Cream Balm

cures, soothes and heals

the diseased membranes

It cures catarrh and drives

a cold in the head quickly.

Cream Balm is placed into the nostrils, spreads

the mucus membranes and relieves

the nose and a cure follows.

It is not strong and does not produce

sleeping. Large Size, 50 cents. Druggists

get it at Trial Size, 10 cents.

ELY BROTHERS, 56 Warren Street, New York

vertisements of C. H. Drury and
Brothers & Board in this issue.
There is not a more important enter-
prise to the farmers of Breckenridge
county than the breeding of fine horses
and mules. To raise fine horses it is
very important to have good sires. Mr.
Drury's stock needs no commendation from
us. It speaks for itself in the
large number of fine colts to be seen
all over the county. Beauchamp &
Beard have lately purchased one of the
finest of stallions and a thoroughbred
animal, with all the qualities that go
to make up a foundation for a nice
line of horses. This horse is as handsome
as a picture and brings with him a
reputation second to none in the
county. These men deserve the
patronage from our people. Good
horses and good mules are always
in demand at good prices. It costs no
more to raise a good colt than it does a poor one and our advice is to
raise good ones.

Chamberlain's Cough Remedy the Best and
Most Popular.

"Mothers buy it for crousy children,
railroad men buy it for severe coughs
and elderly people buy it for la-
grime," say Moore Bros., Elton, Iowa.

"We sell more of Chamberlain's Cough
Remedy than any other kind. It seems
to have taken the lead over several
other good brands." There is no
question but this medicine is the best
that can be procured for coughs and
colds, whether it be a child or an
adult that is afflicted. It always cures
and cures quickly. Sold by Short &
Haynes.

Mattingly Specials.

Mattingly, Ky., April 11.—(Speci-
al)—A school near Hardin's school-
house, which belonged to Norvin Mit-
ler and was occupied by N. Shaffer,
was burned last week. Most of the
contents were saved.

Joe Mullens had sold his farm on
Tar creek to John Matthews for \$1,
300, and Mr. Matthews had sold a
farm to Tom Ryan of Pisgah for \$800.

Last week Miss Emma Mattingly's

wife was dislocated and one of her
limbs broken in two places by jumping
over a buggy. Her horse had become
frightened and was unmanageable.
Her sister jumped and escaped
injury. Mrs. Howard and Kincheloe
set the broken members.

into our town.

Nobe Pate had a fine horse to die
one day last week.

Sam Bivin of Tar Fork, moved to
Tell City last week.

Samuel Lasey has charge of the
post office at this place.

G. B. Pate, of Cloverport, was in
our town one day last week.

Mrs. Mase Hawkins visited her
parents, Mr. and Mrs. Len Peate, last
Sunday.

John Miller, of New Bethel, visited
his sister, Mrs. Mildred Hawkins, last
Sunday.

Excursion on the Branch Saturday,
April 22, \$1 for the round trip all
stages.

Forrest Campbell, who has been in
West Virginia, for the past ten months,
has returned home.

Samuel Brickey, who has been in
Evansville for the past three weeks,
has returned home.

Mrs. Millie Pate, who has been seri-
ously ill at the home of her son,
Remus Pate, is better.

Mrs. Alfred Hawkins and little twins
girls are visiting her parents, Mr. and
Mrs. C. B. Pate, at Cloverport, this
week.

Carl Perkins, of Beechfork, has been
visiting his brothers, Richard and
Will Perkins, at Cloverport, the past
week.

The local union of A. S. of E. met

Saturday night. Several new members
were enrolled.

Poor House Burned.

Hardsburg, Ky., April 11.—(Speci-
al)—Fire was discovered in the
southeast room, upstairs, of the poor
house, about half past 5 o'clock
Thursday afternoon. At the time the
crowd gathered, any attempt to save
the building was seen to be useless.
But all the contents of the house, ex-
cept the furnishings of the room where

the fire originated, were saved. By
heroic efforts, the fire was confined to
one building, and the two other houses
in the yard, only a few feet distant,
were saved. The county carried
no insurance on the property and it
is a total loss, as it was a frame
building. It will cost the county at
least \$1,000 to repair the damaged property.

Judge Matthias Miller has not yet

decided when he will call the fiscal

court together to take steps to re-
build.

GARFIELD.

S. J. Gray was in Louisville part
of last week.

Verner Mattingly will leave for Col-
orado, in a few days.

Rufus Gregory, of Eveleigh, visited

his brother, Tom Gregory, Monday.

Hawkins Smith, wife and children

visited in Irvington Saturday and Sun-
day.

T. A. Gray is erecting a new im-
plement house in connection with his

plant.

Dell Springale went to Fortville
Wednesday to visit his daughter, Mrs.
Elle Haynes.

Mrs. Laura Bridwell, of West Point,

visited Virgil Smith and wife Saturday
and Sunday.

Get ready for the excursion on the
Branch Saturday, April 22, \$1 for the
round trip all stations.

Mrs. Henry Skillman and Miss

Mary Claycomb, of Basin Spring,

visited Mrs. Sallie Harned Monday.

Miss Nannie Johnson will leave soon
for an indefinite visit to her brother,
in Colorado, who has been there sever-
al years for his health.

Miss Lena Johnson will leave soon
for Louisville.

Not Going To Louisville.

Hardsburg, Ky., April 11.—(Speci-
al)—Gen. A. J. Gross, of Holt, was
in town Saturday. He says that the
report that he is to sell out and re-
move to Louisville, is all a mistake
and that he will reside on his farm as
long as he lives.

Don't Take Any Chances

On having blood-poisoning or ugly
scars from a Burn, Cut or Bruise,
use it Paracamp. It relieves
instantly and it heals quickly, there-
by saving you time, worry, and
money. Paracamp heals without
drying and scabbing. Every mother
should keep a bottle in her home
every day of the year.

The Best Kind of News.

Because much of the space usually
devoted to news is filled with adver-
tisements this week no one should be
disposed to have a nice coming. Ad-
vertising is the best kind of news, for it
is the kind that is worth something
to you, because the merchant who
advertises is the merchant who is up-
to-date and the one you want to buy
from.

A Fair Proposition.

If you suffer from Piles, Eczema or
Skin Diseases, go to your druggist and
get a bottle of Paracamp; use it as
directed. If you are not satisfied with
the results, go back and get your
money.

Miss Clara McKaughan Dead.

Stephensburg, Ky., April 11.—(Speci-
al)—Miss Clara McKaughan died

Sunday noon of a complication
of diseases. She is survived by a
brother, Estill McKaughan, and two
sisters, Miss Lillian (McKaughan)
Bolt, of St. Louis, and Mrs. Frank
Blaine. The funeral was held Monday
at 2 o'clock.

Partially Recovered.

Judge W. D. Holt, who was stricken
with paralysis at Jacksonville, Fla., on
March 29, has partially recovered the
use of his left side, which was affected by
the stroke, the fourth in his life
time. He has recovered the use of his left
arm to some extent since being
removed at his home at Holt.

Blanche Blaine, of Tell City, was
admitted to the hospital Saturday

after suffering from a severe attack of
hysteria.

John Miller, of New Bethel, visited
his sister, Mrs. Mildred Hawkins, last
Sunday.

Consumption

The only kind of consumption to fear is "neglected consumption."

People are learning that consumption is a curable disease. It is neglected consumption that is so often incurable.

At the faintest suspicion of consumption get a bottle of Scott's Emulsion and begin regular doses.

The use of Scott's Emulsion at once, has, in thousands of cases, turned the balance in favor of health.

Neglected consumption does not exist where Scott's Emulsion exists.

Prompt use of Scott's Emulsion checks the disease while it can be checked.

Shows Industrial Growth.

Postmaster Rowland's report of the business done by the local office for the year ending March 31, 1905, shows that the gross receipts were \$2,157.03, as compared to \$2,424.57 for the year ending March 31, 1901. He says that the business done by the postoffice is a better commercial barometer than any other of the industrial growth of the city.

The report shows that there were 2,435 money orders issued, 1,132 registered packages received, and 267,638 pieces of mail handled, all increases over last year.

Postmaster Rowland is very gratified over the showing made by the office.

WHAT IS CATARRH?

Hymel cures this Common and Disagreeable Disease.

Hymel cures catarrh by the simple method of breathing it into the air passages and lungs. It kills the germs of the catarrhal poison heals and soothes the irritated mucous membrane, enters the blood with the oxygen and kills the germs present there, effectively driving this disease from the system.

If you have any of the following symptoms, catarrhal germs are at work somewhere in the mucous membrane of the nose, throat, bronchial tubes or tissues of the lungs.

Offensive breath, discharge from the nose, pain across the back of the head, pain in front of the head, tendency to take cold in the throat, mouth open while breathing, back of the neck, formation of crust in the nose, dryness of the throat, stitch in side, spasms of coughing, variable appetite, short, watery stools, fever at times, frequent sneezing, yellow matter, frequent coughing, hoarseness, the upper part of the chest.

Catarrh or catarrhal colds cannot exist when Hymel is used. This is a strong statement, but Short & Haynes emphasize it by agreeing to refund your money if Hymel does not cure.

Hymel will cure the disease, destroy activity of all germ life in the respiratory organs, enrich and purify the blood with additional ozone, and after a few days use of this treatment the majority of these symptoms will have disappeared. In a few weeks the cure will be complete.

Catarrh or catarrhal colds cannot exist when Hymel is used. This is a strong statement, but Short & Haynes emphasize it by agreeing to refund your money if Hymel does not cure.

Hancock Holding Well.

Hawesville, Ky., April 8.—The county union of the A. S. E. met here today and an immense crowd was in the city. It inclined practically all the tobacco growers of the county. Sam Lancaster, of Louisville, was here trying to influence the farmers to adopt the warehouse plan, but they refused and voted overwhelmingly to hold to their crops for the Lynchburg prices. A strong address was delivered by Mr. L. N. Robertson, of Paducah, who had been invited by Dr. John E. Marette, of the county union. Mr. Robertson's address dwelt on the principles of the A. S. E. and on the necessity of farmers organizing and sticking to their organizations. It was very well received and created much enthusiasm.

It is a remarkable fact that but two members of the A. S. E. in this county have sold their tobacco contrary to their pledges and that only about half outside the organization

have sold.

Choked Death.

Kidney trouble often ends fatally, but by choosing the right medicine, E. H. Wolfe, of Bear Grove, Iowa, cheated death. He says: "Two years ago I had Kidney Trouble, which caused me great pain, suffering and anxiety, but I took Electric Bitters, which effected a complete cure. I have also found them of great benefit in general debility and nerve trouble, and keep them constantly on hand, since I find they have no equal." Short & Haynes druggists, guarantee them at 50c.

JAPANESE RELIEF FUND.

Contributions Being Raised For The Sick And Families Of Killed.

Touching appeals from Christian workers in the Far East have come to prominent citizens of the United States, imploring aid for the sick and wounded soldiers of both armies and the multitude of destitute widows and orphans of soldiers killed in the war.

Rev. Y. Honda, principal of the Aoyama Theological School at Tokio, Japan, in a recent letter says: "How long this distressing condition of things will last we cannot say. The people are doing their best and are still at it, but so numerous have the impoverished families become that our means of immediate relief are utterly inadequate. Could some general fund be raised for this noble purpose, and missionaries on the ground be fur-

nished with the means of distributing and alleviating the distress of these families, it would indeed be a precious gift, and I assure you never be forgotten."

We may not help belligerents, but we may help the suffering and distressed. The Red Cross of Pitty is neutral in every claim, and the claims of helpless children are a challenge to Christian love and sacrifice in the world over.

In response to the moving appeals thus coming from Christian workers in Japan, the Japanese Relief Fund has been organized to obtain the help needed, and all funds contributed will be distributed through the Evangelical Alliance of Japan, under the oversight of Bishop Harris, who is now in that country.

The Executive committee, composed of Hon. Seth. Low, Bishop Gree, Bishop Harris, Chas. Cuthbert Hall, D. W. R. Huntington, D. D.; Dr. Newell Dwight Hills, Gen. H. Southard, Dr. Wm. Elliott Griffis and B. F. Buck, Secretary, request contributions, large or small, be sent to the Franklin Trust Company, Treasurer, No. 104 Broadway New York City.

About \$15,000 has already been

contributed for this purpose, \$10,000.00 of which has been forwarded to Japan for distribution.

Last Hope Vanished.

When leading physicians said that W. S. Smitart, of Pekin, Ia., had incurable consumption, his last hope vanished; but Dr. King's New Discovery for Consumption, Conghs and Colds, kept him out of his grave. He says: "This great specific completely cured me, and saved my life. Since then, I have used it for over 10 years, and consider it a marvelous throat and lung cure." Strictly scientific care for Conghs, Sore Throats or Colds; sure preventive of Phthisis. Guaranteed, 50¢ and \$1.00 bottle at Short & Haynes' drug store. Trial free!

Get Lustrative Position.

Ed. J. Berry, formerly local lineman for the Cumberland Telephone & Telegraph company, has been appointed chief electrician and manager of the electric light plant and water works at Lake Providence, La., by the board of aldermen of that city. Mr. Berry has been manager for the Cumberland Telephone & Telegraph company at Lake Providence for several months. His

new position is a much more lucrative one than that he held with the Cumberland.

Mr. Berry has many friends here and in the country who are gratified to learn of his success.

You Ought To Have Enemies.

You have no enemies? Then you have never dared to stand up for the right against wrong, you have never protected the weak against a bully, you have never dared to defend your own rights against oppression. Had you done any of these things you would have enemies. Even if you have done none of these, but simply achieved a little more success in your business than did your neighbor, you would have an enemy, for failure always hatches success. The man who has no enemies should be ashamed of it.

Favor Warehouse Plan.

The American Society of Equity of Oneida county met at the court house in Hartford last Saturday, and there was a large crowd in attendance. The tobacco question was the main topic discussed and there was considerable argument as to the advisability of consigning tobacco to the Equity warehouses at Owensboro. The report of the committee sent to investigate the matter (which was favorable) was accepted, however, and this was an indication of the sentiment of the crowd. Everything passed off harmoniously and it was a profitable meeting.—Hartford Herald.

Sommers For Congress.

Mention of Harry Sommers, of the Elizabethtown, N. Y., for congress, pleases the Glasgow Times immensely. He is able, brilliant, honest, conscientious and pure-minded. The writer has known Harry Sommers since both were boys together, and a better man, citizen and Christian does not live. He is the salt of the earth, and his most serious political trouble would be his inability to lower his ideal high standards to the level of practical politics. The Fourth district would honor himself in honoring him.—Glasgow Times.

Frightful Suffering Relieved.

Suffering frightfully from the virulent poisons of undigested food, C. G. Grayson, of Lula, Miss., took Dr. King's New Life Pills, "with the result," he writes, "that I was cured." All stomach and bowel disorders give way to their tonic, laxative properties. 25¢ at Short & Hayes' drug store, guaranteed.

Rug Advances \$10 per Piece.

Louisville, Ky., April 5.—A new rug measuring three feet in width and four feet in length, which could have been purchased Monday for \$2., and a duplicate of which could now be had for that amount, is held today at \$106, and it is not unlikely that the price will advance, in telling what amount. The president stood upon the rug at the ceremonies in front of the court house yesterday.

A GUARANTEED CURE FOR CHILLS.

Teching, Blind, Bleeding or Prostrated Piles. Druggists refund money if PAZO fails to cure. It is a safe medicine of long standing, in 4 to 14 days. First application gives ease and rest. 50¢. If your druggist does not sell it, send 50¢ and it will be forwarded post-paid by Paris Medicinal Co., St. Louis, Mo.

Library For Elizabethtown.

Andrew Carnegie has made a definite proposal to H. A. Sommers, editor of the Elizabethtown News, to give that city \$7,000 for a public library provided the city will make provision for the purchase of a lot and the maintenance of the institution. The city council of Elizabethtown, at its meeting last week, voted to levy a 10 per cent. tax, which will yield a revenue sufficient for these purposes.

To Vote On Local Option.

An election has been called to be held in Hartford on the ninth day of next month to decide whether or not spirituous, vinous and malt liquors shall continue to be sold here. There are at present two saloons in Hartford. The election occurs on Tuesday and is a little less than five weeks off.—Hartford Herald.

How To Maintain Prices.

(Up-To-Date Pricing.)

We have been asked what the farmers would do to maintain prices if staple crops were extremely large?

To illustrate and reply to this question we will suppose the wheat growers will raise 1,400,000 bushels of wheat this year. This would be about twice as much as ever grown in one crop before. It, we say, is sufficient for two years.

"SPORTING BOY,"

He combines many of the characteristics of both the Morgan and Dernon families. Kentucky's He's by My Own's Boy, Jr., by My Own's Son, No. 1541, who was by Artist, and out of Lady Graves, 57, who was by Mont Rose 106. Artist was by the renowned King William 67, who was by Washington Denmark 64. King William sired Black Eagle 74, who sired Black Squirrel 55, who is famous as a sire of style and good qualities throughout Kentucky and many other states.

SPORTING BOY's dam is by the renowned model and show stallion Endor 27, who has won premiums to his credit than any stallion in his day, and had for his sire King Denmark, and dam by Belvoir (th). Sporting Boy's 2nd dam was by White Chief, by Cabell Lexington, who was one of the most noted sires and show stallions Kentucky ever had. Cabell's Lexington's dam was by Old Tom, Hal, the founder of the pacing horse family in Kentucky and Tennessee. His second dam was by Old Copperbottom, who was one of the founders of the saddle horses in Kentucky and Tennessee. SPORTING BOY not only possesses the blood lines, but has all the qualities in action and beauty. He is a saddle horse from a walk to all gaits, and in a trot he is a trotter and in a rack he is a wonder. He is absolutely sound and has proven a sure breeder.

OPERATION AVOIDED

EXPERIENCE OF MISS MERKLEY

She Was Told That An Operation Was Inevitable. How She Escaped It

When a physician tells a woman suffering with ovarian or womb trouble that an operation is necessary, the very sight of the knife and the operating table strikes terror to her heart, and our hospitals are full of women coming for ovarian or womb operations.

There are cases where an operation is the only resource, but when one considers the great number of cases of ovarian and womb trouble, as shown by Dr. E. P. Pinkham's Vegetable Compound after physicians have advised operations, no woman should submit to one without first trying Dr. E. P. Pinkham's Lynn, Mass., for advice, which is free.

Miss Margaret Merkley of 25 Third Street, Milwaukee, Wis., writes:

Dear Mrs. Pinkham:—

I have suffered from extreme nervousness, shortness of breath, pain in the pelvic organs, bearing down pains and cramps compelled me to seek medical advice.

The doctor, after examining me, told me I had trouble and ulceration and advised an operation.

To this I strongly objected and decided to consult Dr. E. P. Pinkham's Vegetable Compound.

The ulceration quickly healed, and I am now strong, vivacious and well.

Ovarian and womb troubles are steadily on the increase among women. If monthly periods are very painful, or too frequent and excessive, if you have a violent discharge down the left side, bearing down pains, leucorrhoea, don't neglect yourself; try Lydia E. Pinkham's Vegetable Compound.

Farmers should consider big crops biannually, and make them instead of allowing them to be carried away as they have been under the old system. It costs them little more to raise a large crop than a small one. For the reason farmers are to be envied. With the manufacturer it is different. If he increases his output of goods it is only so much increase per machine or article.

Farmers, organize, then farm intensively and make every bushel and pound of produce return you a legitimate profit. It can be done, as there is not a problem in the agricultural book that the rules of the A. S. of E. will not solve.

WEDNESDAY April 12, 1905

AS VIEWED BY THE PRESS.

President's Visit to Louisville As Seen By Morning Organs.

Though President Roosevelt's visit to Louisville took place a week ago yesterday, it is of interest to note in what light the welcome he received, the greatest ever accorded to any man by that city, is viewed editorially by the two morning papers of Wednesday, the day following the visit of the chief executive of the nation.

The Courier-Journal, Democratic, says:

"It would be well if such occasions as the visit and reception of the President here yesterday were more frequent and more general throughout the country. They most happily promote good feelings and good Americanism. They serve, as nothing else serves so well, to submerge and even sweep away the artificial lines of sectionalism and partisanship which we draw between ourselves and the rest of the nation in realization of that unity and catholicity which are the natural conditions of a homogeneous and patriotic people. Would that this were Ken-tucky's fortune often; would that Ken-tucky's fortune yesterday were that of every part of our common land."

The Louisville Herald, Republican, says:

"Heartfelt, patriotic, honorable alike to guest and to host, was Louisville's reception of Theodore Roosevelt. The depth and generosity, the honesty and earnestness of Kentucky hospitality, already well known to the President, were all in evidence. Everybody in Louisville participated in the welcome. The whole people were fully represented in the turn-out. It was an outpouring, indeed, of the popular heart to a man whom his fellow citizens not only revere, but love. Kentucky shows no political lines when it comes to doing honor to such a visitor. Every class of citizenship and every shade of political thought were represented in yesterday's magnificent testimony of affection and respect."

"The Democrat and the Republican, the Union and the Confederate veteran, the soldier and the civilian, the merchant prince and the professional manufacturer and the student all were represented. It was a reception not alone worth the typical of Louisville and of Kentucky, but of the South. His keynote was honesty. Not a suggestion of affection in any feature or incident of the occasion. The people turned out to honor their President, and did it in spontaneous Southern fashion. Kentucky stood yesterday for all the South, and right well did she represent this splendid section of the national domain. Her reception of the nation's Chief Magistrate will be hailed with delight all over the country."

"It will arouse the warmest feeling everywhere for this State and section. It will prove that the South glories in national achievement as much as North, East or West; that sectionalism has disappeared; that nationalism is the aim and purpose of every State, and that the more each Commonwealth conforms to the national spirit the better it will conserve and promote the local interests and distinctive characteristics" that it prizes in.

THE REAL QUESTION.

The real question of disease is "Can I be cured?" If you are any good, you will find your losing strength, flesh, energy and vitality. If you are wise you will not ignore this just what name to call the disease by.

It is almost impossible to draw the line between idleness and weakness, merge into consumption. You may not be consumption today, but you don't know what it may become tomorrow. You have been forced to robust health by Dr. Pierce's "Golden Medical Discovery" after repeated visits physicians have pronounced them consumptive but had hope.

Were they in consumption? No, they can never get it. The important point is that they were hopelessly ill but that matched "Discovery" and the cure was sure.

"I was not able to do hard work at all," says Mrs. Jennie Gandy, of Vanburen, Kan., who, in a most interesting letter to Dr. Pierce, relates how she had sides and back and had headaches all the time. Last spring I had a bad cough; I got so bad I had to give up my work. My husband thought I had consumption. He wanted me to get a doctor, but I told him it was all right and I could get along. We thought we would try Dr. Pierce's Golden Medical Discovery. I had taken one bottle the cough was stopped and I have not had it since. I am returning. Your medicine is the best I have ever taken."

Write to Dr. R. V. Pierce. He will send you, free, a full, thoroughly professional advice, in a few words, and a copy of his book, "How to Live." Nearly 40 years experience as chief consulting physician of the invalids at Rock Island, Ill., has made him an expert in chronic diseases.

Constipation causes and aggravates many serious diseases. It is thoroughly cured by Dr. Pierce's Pleasant Pellets.

No One But Yourself if You Don't Get Well When Sick.

All we can do is give advice. Of course that's easy.

But our advice is really worth a little more to than most people, for we offer to give you the best of our knowledge if it fails to help you.

We could not afford to do this unless our medicine was good. Such an offer, on the words of most medical writers, put us in a prominent position in the poor race.

Dr. Miles' Nervine, however, as years of experience have proved, is a medicine that does not sick.

There is nothing that cannot benefit—less than one in ten thousand—we prefer to refund your money.

You are the doctor. All we ask of you is to try Dr. Miles' Nervine. We will refund your money if it fails to help you.

It is good for you to rest from strenuous, nervous exhaustion, dizziness, headache, muscular twitches, melancholy, loss of memory, weak stomach, poor blood, etc., etc. We will guarantee to benefit you, or refund your money.

About Rheumatism.

There are few diseases that inflict more torture than rheumatism and there is probably no disease for which such varied and useless forms of remedy have been suggested as that it can be cured. Therefore, a bold statement to make, but Chamberlain's Pain Balm, which enjoys an extensive sale, has met with great success in the treatment of this disease. One application of Pain Balm will relieve the pain, and hundreds of sufferers have testified to permanent cures by its use. Why suffer when Pain Balm affords such quick relief and costs but a trifle? For sale by Short & Baynes.

Bar Owner Is Fired.

H. F. Kriger, the owner of the bar on the L. & E. Bucket Co.'s boats, plead guilty to selling liquor to minors while the boats were landed at this wharf here and was fined \$100 and "trumming" in the Police Court Saturday—Meade County Messenger.

It Will Surprise You—Fry It.

It is the medicine above all others for catarrh and is worth its weight in gold. Ely's Cream Balm does all that is claimed for it—B. W. Sperry, Hartford, Conn.

My son was afflicted with catarrh. He used Ely's Cream Balm and the disagreeable catarrh left him—J. C. Olmsted, Arcola, Ill.

The Balm does not irritate or cause searing. Sold by all druggists at 50cts or mailed by Ely Brothers, 56 Warren St., New York.

Negro Painfully Hurt.

Tom Singleton, colored, was painfully hurt at West Point, last Wednesday morning by being struck in the breast by a piece of piling which was passing through the iron cage. The end of the pile, and the smaller end, being quickly unpinned, caught him squarely across the breast. It is not believed that he was injured internally, but he received a painful bruise on his breast. The wonder is that the blow he received did not kill him.

Singleton returned on the morning train from West Point to his home here. He is employed by the railroad company.

Move To Louisville.

L. D. Addison and family, of Addison, moved to Louisville last week. Mr. Addison, it will be remembered, sold his stock of goods at Addison several months ago to L. B. Lewis, of Bloomfield.

Mr. Addison will engage in the wholesale whiskey business in Louisville, while his sis'r, Mrs. Williams, will conduct a boarding house.

Most Enjoyable Affair.

The social given in the Sunday school room of the Methodist church on Tuesday evening of last week by the Epworth League was a most enjoyable affair. The social was the first ever given by the League and was for its members only.

Goebel Cases Continued.

The cases of Gov. W. S. Taylor, Chas. Finley and others for alleged complicity in the plot to murder Senator Goebel were called in circuit court at Frankfort last week and were continued as usual with alias process.

A SQUARE DEAL THE KEYNOTE OF PRESIDENT'S TEXAS SPEECH.

San Antonio, Tex., April 7.—President Roosevelt arrived here last night at 8:30 o'clock and was received with open arms by his war comrades, the famous Rough Riders of the Spanish war, who are holding reunion near the Alamo.

On his way to this city through the Lone Star State the President made short stops at a number of places, and at Austin addressed the Legislature, saying in part:

"I think, Governor and Mr. Speaker and gentlemen, that the longer our experience in public office is, the more we realize that at least 95 per cent, if not more, in importance of the work done by any public officer who is worth his salt has nothing whatever to do with partisan politics. The things that concern us all as good citizens are infinitely larger than the matters concerning which we are divided one from the other along party lines. Fundamentally our attitude in our foreign affairs, and in reference to foreign nations, must, in the long run, if we are to be successful as a people, be based upon certain common sense rules of conduct—the identical rules upon which every self-respecting citizens must base his private actions.

No Discrimination.

This is especially true as regards all questions dealing with capital and labor and especially in dealing with the great aggregates of capital. I usually look to be found in corporate form, through which so much of our business at the present day is conducted. It is essential in dealing thus by legislative action with corporate wealth, or indeed with wealth in any form, that we remember and act upon certain rules simple enough to state but not always easy when it comes to acting upon them. Most emphatically, as good Americans, bear hostility to any rich man as such, any more than to any poor man as such. My experience has been that the man who talks loudly of his hostility to corporate wealth cannot be trusted to act up to the way he talks.

Common Sense Needed.

I know perfectly well that when you give that power there is a chance of its being occasionally abused. There is no power that can be given to the representatives of the people which it is not possible to abuse. As every one knows, the power of taxation, which must of course be given to the representatives of the people, is the power of death, for it is possible to kill any industry by excessive taxation. There must be certain trust placed in the common sense and common honesty of those who are to enforce the law.

If it ever fails, and I think it will, to my lot to nominate a board to carry out such a law, I shall nominate, as far as I am able, and on whose ability, courage and integrity I can count, men who will not be swayed by any influence, whether direct or indirect, such political or other influences as those implying favoritism to the railroads, and who, on the other hand, if a railroad is unjustly attacked, no matter if that attack has behind it the feeling of prejudice of 99 per cent of the people, will stand up against that attack. That is my interpretation of the doctrine of a square deal.

The Railroads.

On the whole there have been few instruments in the economic development of the country which have done more for the country than the railroads.

Charles Farmer, aged three years, fell in a shaft thirty-five feet deep at Fenley last Saturday and received only a slight scalp wound. The little fellow was not even unconscious from the fall and began to cry as soon as he struck the bottom of the shaft, Hawesville, Ky.

A Friend and True Friend.

One minute Cough can cause not an atom of any harmful drug and it has been curing Coughs, Colds, Croup and Whooping Cough so long that it has proven itself to be a tried and true friend to the many who use it.

Mrs. Gertrude E. Fenner, Marion, Ind., says: "Coughing and straining so weakened me that I ran down in weight from 148 to 92 pounds. After trying a number of remedies to no avail, One Minute Cough Cure entirely cured me." Said by all druggists.
